IMPORTANT: Please keep the Serial Number for SyncBackPro. It is required by the program before it can be used. You may download SyncBackPro V7 at any time using the following link:

YOUR SERIAL NUMBER

We provide one unique serial number for SyncBackPro to each customer per order. You have the right to install the software on as many computers up to the number of licenses you have paid for.

We sell volume licenses to individuals, businesses, hospitals, educational institutions and many other larger organizations. Our method of issuing a single serial number per order makes the installation procedure simple for both individuals and System Administrators.

Customers need only download our software once to install on multiple computers, and there is no need to be connected to the Internet during the installation process. This approach is again convenient to both individuals and those who work in a larger computer networked environment.

INVOICING

This order confirmation email for your software license is usually considered as an appropriate invoice for small orders.

This shows the amount tendered, the product, your order number, our business name "2BrightSparks Pte Ltd", and your name and details. We very rarely receive requests for more formal written invoices even for larger orders, and we ourselves use online email receipts/invoices as proof of online purchases in our own accounts procedure.

If you believe you still require a PDF invoice, please visit the eSellerate After-Purchase Services web site at:

<http://store.esellerate.net/support>

You will need to enter your email address and order ID, then click the receipt link - you will then see a copy of the confirmation page.

You may either take a screenshot of the receipt and turn that into a PDF, or if you have acrobat or another PDF utility installed, you might be able to convert to PDF straight from your web browser.
