Cancellation & Refunds

If you must cancel your trip, the following fees apply:

- Full refund for cancellations at least 7 days before trip begins.

In the event a trip is canceled due to bad weather, we will provide a full refund for that portion of the trip.

The Aurora Borealis is a natural phenomenon that relies on several natural factors to occur and be seen from Earth. We need sunspots, plasma from sun arriving in our atmosphere, darkness, and clear cloudless skies in order to see them. As such, we can never guarantee that you will see them and we recommend going out for Aurora chases a minimum of 3 nights to maximize your chances. We try our best to ensure you have your best chances of seeing them every night but there will be no refunds for trips taken even if we end up not seeing the Aurora.
